

EPOGEE®

EPG IS SAFE AND SOUND

The safety of EPG has been consistently demonstrated through extensive clinical, non-clinical and invitro investigations.

RIGOROUSLY tested in over 65 studies

- ✓ Tested in human consumption studies up to 150 grams/day (no upper limit of daily consumption established by FDA)
- ✓ Non-carcinogenic, non-sensitizing and non-irritating
- ✓ Does not deplete fat-soluble vitamins in the body or limit their absorption
- ✓ No adverse reproductive or developmental effects (3 generational study)

Environmentally & nutritionally safe

- ✓ Decomposes like traditional fats and oils
- ✓ Manufactured in a Global Food Safety Initiative (GFSI) benchmarked facility in accordance with Good Manufacturing Practices (GMP) for food
- ✓ GMO-free, gluten-free, allergen-free, trans fat-free, vegan, kosher and halal
- ✓ FDA GRAS status across 14 applications
